EDBAK is a leading European manufacturer of innovative LCD screens and projector mounting systems. For 25 years already, we have offered, among other things, professional mounts for flat screens and monitors, conference trolleys and stands, multi-monitor video walls, totems, kiosks, POS holders and tablet mounts, and many, many others. Our products all have the most important quality certificates, including those issued by TÜV, ISO, AVIXA. All of our products are designed and manufactured from the very beginning until completion in Poland.
